Mr. and Mrs. Lanny L. Jensen and Marilyn K. Jensen (Save All, dba)
P. O. Box 416 Richfield, Utah 84701 Certified Mail # P617-109-517

**SUBJECT: Accountability for (1200) twelve hundred tons of
Gypsum Rock removed from the quarry on BJ-2
UMC # 212727 claim, NE/4, SW/4 section 29,
T. 22 S., R. 9 E., Emery County, Utah**

An investigation of the facts concerning the termination of Lanny L. Jensen as Operator of the above gypsum quarry owned by John E. Welsh is in progress.

Jensen received notices from the BLM dated August 30, 1991, and from Welsh dated September 19, 1991 that state that Jensen either had to be in compliance with Federal and State regulations and with terms of The Agreement with Welsh or terminate all activities by September 30, 1991.

This ongoing investigation of Jensen's activities, while under Notices of Termination, has discovered that Lanny L. Jensen (Save All) removed 1200 tons of high quality gypsum rock from the BJ-2 quarry and cached this rock in the then inactive quarry to the West on mining claims owned by the Georgia Pacific Corporation. This clandestine stockpiling by Jensen was done in the last week of September for the sole purpose of defrauding Welsh.

Inspection of the Georgia Pacific Quarry on November 21, 1991 by Welsh accompanied by an Officer of Emery County determined that the 1200 tons of stockpiled gypsum rock was missing and had been shipped from the quarry. It is Welsh's presumption that the 1200 tons of gypsum rock were shipped earlier in November to the Georgia Pacific Plant in Sigurd, Utah. If you have another explanation or information concerning the disposition of this unaccountable gypsum rock, I request that you voluntarily supply this information in a writing to me within (15) fifteen calendar days upon receipt of this letter.

The 1200 tons of gypsum rock have not been accounted for by any records supplied to Welsh by either Jensen (Save All) or Georgia Pacific Corporation. This 1200 tons of gypsum rock is and remains legally the sole property of John E. Welsh, regardless of where it is now located.

Whoever is in possession of the 1200 tons of gypsum rock owes Welsh the present wholesale price for this high quality rock. This price is established by Western Clay Company of Aurora, Utah at \$7.50 seven dollars and fifty cents per ton. The price FOB the BJ-2 quarry is \$ 7.50 minus \$ 3.75 for transportation or a net price of \$ 3.75 per ton.

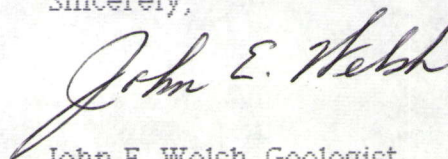

A balance of \$ 4,500 is now owed to Welsh by whomever (individual or corporation) is in possession of the (1200) twelve hundred tons of gypsum rock.

I am certain that this matter will receive your immediate and prompt attention especially if you are in any way associated with this **unaccountable gypsum rock.**
